WORK EXPERIENCE

Retail Sales Assistant

Fresh Fruit Glasgow - Glasgow
December 2018 to Present

Working retail in the Govan hill area comes with many challenges due to the diverse culture of the residents. It allows me to become confident in communication with people of different languages. I am able to cope well under pressure when customers become agitated due to long queues or delays. I excel at working in a team with the managers or delivery men.

Finance Director

RENCO - Renfrew
August 2019 to May 2020

As Finance director of RENCO Ltd. I allocated funds to the different departments and coordinated with my team to keep meticulous records of the company finances. My interest in business and skill in mathematics gave me confidence when presenting and communicating to senior business men & women.

Activities Assistant

HC One - Paisley
August 2018 to May 2020

I've been volunteering in an elderly care home, where I assist carers. Since many of the residents have hearing impairments as well as speech difficulties I am able to adapt my communication skills. Having observed the nurses do the drug rounds, I have noted the attentiveness that is required when caring for such a vulnerable group. I am privileged that some of the residents share their personal stories with me and they trust me enough to reveal any troubles. The staff work together seamlessly, this has taught me the great importance of team work. Abuse from the residents is uncommon but occurs, mostly due to their declining mental states. I now understand the necessity for patience and consideration required when working with ranges of different people.

EDUCATION

Bachelor's in Medicine MBChB

University of Glasgow - Glasgow
September 2020 to Present
