Work Experience

Student Brand Ambassador

Virgin Media - Glasgow

July 2020 to Present

While working as a Student Brand Ambassador, I approached and spoke to various students at my university as well as many other Scottish universities to tell them about the great Virgin Media broadband student deals I could offer them.

I became a lot more confident and gained valuable sales experience. I also worked with fellow student brand ambassadors to come up with methods to attract more students to the deals we were offering.

Contact Tracer

TTEC

May 2020 to June 2020

I supported the NHS and Public Health England track and trace program where I reached people who had been in recent contact with a confirmed case of COVID-19 in order to provide them with medical advice and guidance, and to slow the spread of the virus.

I was trained on Data Security Awareness, safeguarding children and adults, health protection, contact tracing, and COVID-19.

Education

Bachelor's in Mechatronics

University of Glasgow - Glasgow

September 2018 to Present

Higher National Certificate in Mechanical Engineering

Edinburgh College - Edinburgh

August 2017 to June 2018

A-Level or equivalent

Stewart's Melville College

August 2012 to June 2017

- Fundraising (1 year)
- Coaching (2 years)
- Report Writing (2 years)
- Microsoft Office (6 years)
- Team Management (3 years)
- Public Speaking (3 years)
- Conflict Resolution (2 years)
- Childcare (3 years)
- Excel (6 years)
- Customer Service (2 years)

Certifications and Licenses

Junior Cadet Instructor Cadre

December 2016 to Present

The junior cadet instructor cadre course provides cadets with the skills to tutor younger/newer cadets in APC subjects such as Navigation and Skill at Arms.

First Aid at Work

June 2017 to June 2020

The First Aid at Work course provides the learner with the skills to handle accidental and emergency situations in the workplace.

Additional Information

During my fourth and fifth year of high school, I was a part of my school's charity committee. During that time, I obtained fundraising and customer service skills.

Throughout my entire time in high school, I learned how to use Microsoft Office and the internet efficiently and effectively.

I was a member of the school curling team for three years and we competed in many competitions against other schools and professional teams.

I was also a member of the school choir from 2012 to 2014 and we performed at the Royal Edinburgh Military Tattoo in 2013.

During my time at college and currently at university, I have developed report writing skills through multiple projects which contribute towards my grades. I have also further developed my skills and proficiency in Microsoft Office applications and computer-aided design.

I was a member of the army cadet force (ACF) for 5 years (2013 to 2018) where I progressed up to the rank of Corporal before I left due to reaching the age limit. During my time there, I obtained vital skills such as public speaking, responsibility, conflict resolution, and team working as well as a qualification in leadership. I looked after and taught a range of cadets but mainly younger cadets who had recently joined and I completed a Junior Cadet Instructor Cadre. I also received training in First Aid and completed a course in First Aid at Work.

At home, I speak Cantonese on a daily basis to my family and I have been learning German since 2012. I have recently began learning Japanese in my free time.
