### Skills and interests

I pride myself on my discipline and motivation and enjoy pushing myself out of my comfort zone and beyond my physical and mental limits. For example, I began running in 2018. In that first year I completed a half marathon and a marathon, and I am currently training for my first ultramarathon, a 43-

mile race which I will hopefully complete in August next year. During my first year of university I became the secretary of my year club, in which I was fundamental to the organising and running of multiple events throughout the year, including a successful end of year ball. I also volunteer with an organisation called the street pastors, which is involved in helping homeless people and people coming out of bars and clubs in the early hours of the morning, making sure they're safe and helping them get home. In my spare time I play both guitar and keyboard, and in the latter, I achieved a distinction at grade 8 during my final year at school.
