#### A-Levels

Mathematics	A*
Physics	A
Further Mathematics	A
English Lit.	A*

## Skills

I have an ambitious and competitive personality and always seek to challenge myself. In my pursuits I manage to remain disciplined and am always conscious of long term goals. I have learnt how to solve complex problems; how to maintain a positive attitude and never give up. Above all I know hard work is paramount and I am always willing to make sacrifices to do what I love and achieve my goals.

## Interests

I am a big fan of Formula One and also like to dream about space and the stars, and hope to help humanity explore beyond our planet in the future. Besides this I am passionate about music, having played french horn (grade 8) in the Hallé Youth Orchestra and local symphony orchestra for several years, as well as piano (grade 6). I also enjoy playing football.
