## DECLAN JOHNSON

### SUMMARY

A' Level student currently working towards taking up an engineering degree and then a career in engineering, ideally in the environmental civil engineering sector.

### EDUCATION

#### **BRADFORD GRAMMAR SCHOOL, BRADFORD, WEST YORKSHIRE 2013-2018**

GCES: 5 x A\* (English Language, Maths, Design Technology, Geography, Biology); 3 x A (English Literature, Physics, Chemistry); 1 x B (History); 1 x C (French). Now studying Maths, Physics, Geography and Design Technology at A Levels.

#### **RICHMOND HOUSE SCHOOL, HEADINGLEY, LEEDS 2009-2013**

### EXPERIENCE

#### **MOTT MACDONALD BENTLEY, LEEDS, JULY 2018**

I spent a week with MMB in the summer and was given a project that the company had been involved in a few years ago involving a sewage project in Morley, Leeds. As well as conducting a site visit I had a work booklet to go through that set me different tasks each day. It made me go around the company meeting people and finding out about their jobs. By the end of the week I had completed all aspects of the project from CAD/CAM to the financing. I was given a good review when I left and invited to apply for paid summer work. The placement was really exciting and showed me how great engineering is.

#### **CADBURY GIFTS DIRECT, RIPON, EASTER 2018**

Through a family connection I have had various work experience placements during holidays - working in the warehouse, assembling gifts and scanning orders.

### PROJECTS

Currently working on an AS Level DT assignment looking at using a filter in washing machines to prevent microfibres polluting rivers, lakes and seas. I am hoping to create a product that is a universal fit and could be installed in all machines in the future.

### CERTIFICATES & COURSES

Awarded an Arkwright Engineering Scholarship 2018  
Grade 1 Tennis Coach  
Duke of Edinburgh Bronze & Diamond Award | Undertaking DoE Gold  
National Citizen Service 2018

### INTERESTS

I am very interested in sports and have played rugby union since I was six, for both my local rugby club Otley, and for school. I now play for the school 1<sup>st</sup> team where I am the hooker. I am also a very keen tennis player, for my club and for the school 1<sup>st</sup> team where I won my sports colours. Other interests include fly fishing; CAD design; computer gaming, mountain biking, windsurfing and cooking. I have been told I make great bread!
